

AIREZ™

THE PHYSICAL INTELLIGENCE LAYER™

SEE WHAT IS HAPPENING. UNDERSTAND WHAT IT MEANS. COORDINATE WHAT HAPPENS NEXT.

AIREZ connects cameras, sensors, environmental systems, access control, robotics, wearables and other physical technologies into one intelligence layer—helping organizations understand and respond to the physical world around them.

ONE ORGANIZATION. MANY SENSORS. ONE PHYSICAL INTELLIGENCE LAYER.

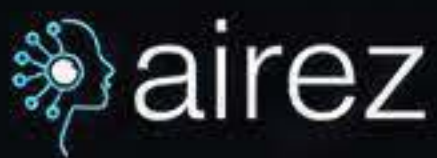

THE HARDWARE ISN'T THE INTELLIGENCE.

Cameras see. Sensors detect. Robots move. Wearables travel with responders.

AIREZ brings the signals together and creates context.

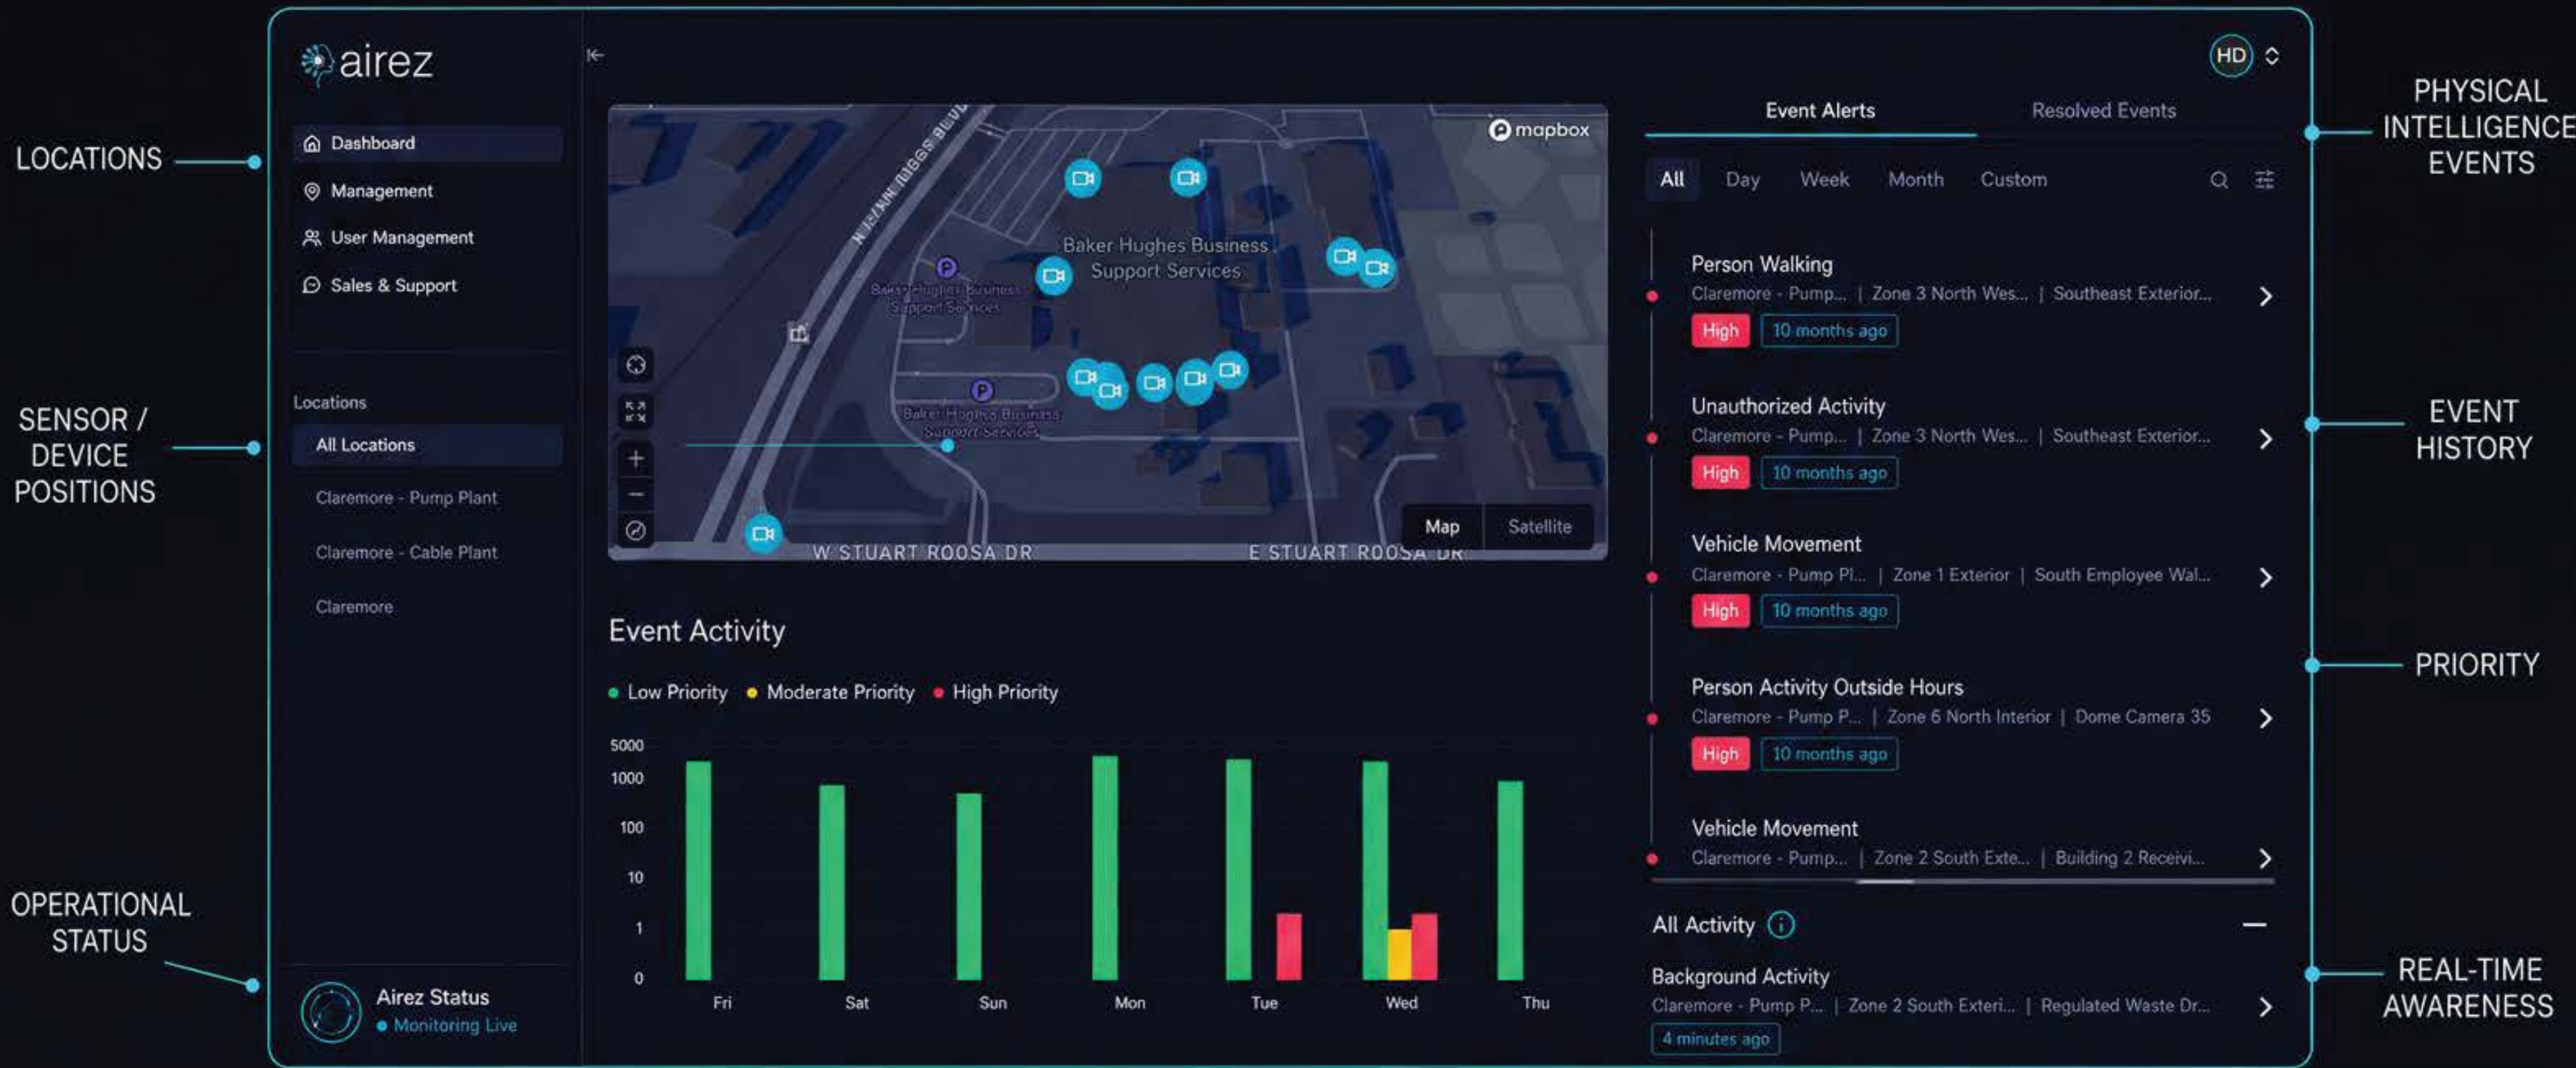

SENSE → FUSE → UNDERSTAND → COMMUNICATE → RESPOND → LEARN

AIREZ transforms physical signals into operational understanding.

EVERYTHING COMES TOGETHER IN AIREZ.

The AIREZ Global Security Operations Center provides a centralized operational view across locations, devices, sensors, events and response systems.

AIREZ TEXTS YOUR TEAM

Configured deployments can potentially deliver context through dashboard alerts, SMS, email, voice and other approved workflows.

DEPLOY AIREZ YOUR WAY

CLOUD — Centralized, scalable multi-location intelligence.

ON-PREM — Greater infrastructure control, data locality and restricted-connectivity support.

PHYSICAL ENVIRONMENT

AIREZ EDGE

CLOUD OR ON-PREM

AIREZ GSOC

YOU DON'T NEED EVERY AIREZ PRODUCT. YOU NEED THE RIGHT PHYSICAL INTELLIGENCE FOR YOUR ENVIRONMENT.

AIREZ DOESN'T REQUIRE YOU TO REPLACE YOUR ENVIRONMENT.
Airez makes your environment more intelligent.

A NEW CATEGORY: PHYSICAL INTELLIGENCE

Each system knows something. Few understand the whole environment. AIREZ is the intelligence layer between physical-world signals and human response.
