

AIREZ

The Physical Intelligence Layer

AIREZ SENTRY™

YOUR SECURITY TEAM JUST BECAME PART OF THE INTELLIGENCE NETWORK.

Physical Intelligence goes with your security team.

POWERED BY AXIS BODY-WORN TECHNOLOGY

Built around the AXIS W120 Body Worn Camera, SENTRY connects field personnel to the AIREZ Physical Intelligence Layer. When configured, available live video, audio and location can join fixed cameras, access control, BEACON and other sensors—giving operators a broader, continuously updated view of an incident.

AN INCIDENT OCCURS. AIREZ RESPONDS.

10:41 PM — POSSIBLE ALTERCATION DETECTED

“SENTRY 12 — Casino Bar West.”

Facility cameras establish context. A nearby SENTRY-equipped officer is notified. As the officer approaches, available live video and location enrich the GSOC view.

DETECT → UNDERSTAND → DISPATCH → RESPOND → DOCUMENT

SEE

1080p video and
a wide 137° view

HEAR

Dual microphones
with voice
enhancement

LOCATE

GPS, GLONASS,
Galileo and BeiDou

CONNECT

LTE/4G
live-streaming
capability

ENDURE

IP67 and up to
15 hours of
operation

PROTECT

128 GB encrypted
internal storage

DON'T JUST RECORD THE RESPONSE. UNDERSTAND IT WHILE IT'S HAPPENING.
