PHYSICAL INTELLIGENCE FOR TELECOM INFRASTRUCTURE

## ONE TOWER. DOZENS OF RISKS. ONE PHYSICAL INTELLIGENCE LAYER.

### TURN EVERY REMOTE TOWER INTO AN INTELLIGENT SITE.

TOWER360 is a configurable AIREZ sensor-fusion solution designed for cellular towers and other remote telecommunications infrastructure. It combines existing site infrastructure with appropriate AIREZ products, partner technologies and supported sensor integrations to create contextual awareness around security, environmental conditions, equipment, wildlife and human activity.

## KNOW BEFORE YOU ROLL A TRUCK.

TOWER360 can help operators remotely understand site conditions before dispatching personnel, potentially improving prioritization of maintenance and inspection resources.

## KEEP THE INFRASTRUCTURE YOU ALREADY OWN.

CONNECT WHAT'S THERE. ADD WHAT'S MISSING. LET AIREZ UNDERSTAND IT TOGETHER.

TOWER360 can be configured using existing supported cameras, access-control systems, environmental/site telemetry and additional AIREZ or partner sensing technologies as required.
