

MEET AIREZ ALLIE™

Physical Intelligence. Here to Help.

“Meet Allie. She’s here to help.”

Assist. Observe. Communicate. Detect. Escalate.

Allie assists guests, recognizes when someone may need help, and connects people with the right employee—while AIREZ continuously turns her sensor inputs into contextual awareness.

Intelligence that moves.

Traditional facility intelligence is attached to walls and ceilings. Allie walks through the environment—bringing awareness to where people actually are.

 VISION People, objects & activity	 THERMAL Configured heat events
 AUDIO Alarms & calls for help	 ENVIRONMENTAL Sensor-package conditions
 SPATIAL Location & change	 IDENTITY + ACCESS Where authorized
