

AIREZ FTZ360™ — PHYSICAL INTELLIGENCE FOR FOREIGN-TRADE ZONES

EVERY MOVEMENT MATTERS. KNOW WHEN SOMETHING DOESN'T ADD UP.

Foreign-Trade Zones generate continuous streams of physical information from cameras, access control, RFID, gates, motion detection, perimeter systems and other sensors. Each system knows something. FTZ360 is designed to understand what those signals mean together.

ONE ZONE. MANY SIGNALS. ONE PHYSICAL INTELLIGENCE LAYER.

THE SIGNAL IS ONLY THE BEGINNING. THE CONTEXT IS WHAT MATTERS.

AIREZ™ — THE PHYSICAL INTELLIGENCE LAYER™

AIREZ FTZ360™ — PHYSICAL INTELLIGENCE FOR FOREIGN-TRADE ZONES

SECURITY. OPERATIONS. COMPLIANCE. ONE OPERATIONAL PICTURE.

AIREZ GSOC

UNEXPECTED MERCHANDISE MOVEMENT

RFID movement + access context + loading-door activity + video

MOVEMENT ANOMALY — REVIEW REQUIRED

GATE MOVEMENT DISCREPANCY

Vehicle movement + gate event + available credential/operational context

OPERATIONS REVIEW RECOMMENDED

PERIMETER EVENT

Perimeter sensor + motion + video

POTENTIAL UNAUTHORIZED ENTRY

AFTER-HOURS ACTIVITY

Person/activity + restricted time period + no corresponding authorized-access event

UNEXPECTED ACTIVITY — REVIEW RECOMMENDED

FROM ALERT TO EVIDENCE		
	WHAT HAPPENED	Plain-language event description
	WHERE	Facility / zone / gate / warehouse / loading area
	WHEN	Timestamp and event sequence
	CORRELATED SIGNALS	Video • Access • RFID • Motion • Contact • Perimeter
	SUPPORTING EVIDENCE	Associated imagery/video/event records where available
	STATUS	New • Reviewing • Escalated • Resolved

SHOW THE DIFFERENCE

WITHOUT FTZ360

Camera Alert

RFID Event

Door Alarm

Motion Alert

Perimeter Event

Five disconnected signals requiring manual correlation.

WITH FTZ360

ONE CORRELATED EVENT

“Unexpected merchandise movement detected in Shipping Area 3. Activity occurred without a corresponding authorized-access event. Available video and RFID context attached for review.”

FEWER DISCONNECTED ALERTS. MORE OPERATIONAL CONTEXT.

EXISTING INFRASTRUCTURE

CONNECT WHAT'S THERE. ADD WHAT'S MISSING. UNDERSTAND IT TOGETHER.

FTZ360 is designed to work with supported existing security and sensing infrastructure rather than requiring wholesale replacement.

Cameras • Access Control • RFID • Gate Systems • Motion Detection • Environmental Sensors • Contact Sensors • Vibration • Perimeter Detection

Specific integrations depend on supported protocols, APIs and engineering validation.
