AIREZ PARK360™ — PHYSICAL INTELLIGENCE FOR PARKING ENVIRONMENTS

DON'T JUST RECORD THE INCIDENT. UNDERSTAND WHEN SOMETHING IS HAPPENING.

Parking garages can be among the largest and least actively monitored areas of a property. PARK360 extends the AIREZ Physical Intelligence Layer into the parking environment, helping transform isolated sensor and camera events into meaningful operational context.

ONE DOOR PULL MAY MEAN NOTHING. TEN DOOR PULLS TELL A DIFFERENT STORY.

AIREZ correlates available signals, patterns, time, location and operational context — not merely another isolated alert.

THE GARAGE IS PART OF YOUR PROPERTY. PROTECT IT LIKE IT IS.

OPERATIONAL SCENARIOS

DOOR PULLS

Repeated vehicle interactions → suspicious activity pattern → security review.

POTENTIAL VEHICLE BREAK-IN

Glass-breaking/audio event + visual activity around vehicle → correlated event → security notification.

PERSONAL SAFETY

Unusual human activity or potential safety event → security review/response.

VEHICLE INCIDENT

Visual vehicle anomaly/collision context → operations/security notification.

VANDALISM / SUSPICIOUS ACTIVITY

Loitering, repeated movement between vehicles, restricted-area entry or other configured anomalies → review recommended.

FACILITY EVENT

Smoke/fire indicators, access events, environmental conditions or other connected facility signals → contextual AIREZ event.
